TENTH YEAR

BIG TWO WEEKS MEETING NOW ON AT AGRICULTURAL COLLEGE

Farmers Round-Up And Housekeepers Convention opened yesterday. Many Visitors From Utah And Southern Idaho in Attendance. More Interest Than Ever Before Being Shown

The big annual Farmers' Roundup and Housekeepers convention opened in a rousing manner at the Agricultural College yesterday morning. The forenoon was given over to the matter of registration and getting acquainted in general and the afternoon to listening to the address of welcome by President Widsöe and response in behalf of the convention by Bishop Milo A. Hendricks, of Pocatello, Idaho. Bishop Hendricks assumed this responsibility in place of Bishop John Hall of Huntsville, who was unable to be present at the gathering. Nearly two hundred people had registered up to the close of Monday and a large influx of visitors is expected, including a number who are coming up from Salt Lake.

The registration is not confined to any one district of the state, but includes representatives from various districts in the central and northern part of Utah, and a number of progressive farmers with their wives have come down from Southern Idaho to remain here during the two weeks of the session.

The musical concert which has been announced on the program to take place Monday evening, has been postponed to this evening and will be given in the tabernacle. Prof. George W. Thatcher of the music department of the college, has arranged a special program for this evening, and it is expected that a full house will characterize the same. The admission is free to the general public.

One of the features of the conference which is of equal interest to the men as well as the women is the splendid display of electrical devices which occupies the entire south half of the fourth floor of the Woman's building. These devices have been furnished by the various electrical supply companies in Salt Lake City and expert demonstrators are on hand at all times to explain the workings of the same.

The exhibit includes model houses showing the effect of good and poor electric lighting, fans, chafing dishes, roasters, percolators, urns, various kinds of incandescent lights, irons, motors, cigar lighters, ovens vacuum cleaners, in fact every kind of device that would facilitate the work of the woman in the home is here on exhibition. In addition to this the various types of telephones for rural service are on display and the Utah Power and Light Co. of Salt Lake City has arranged a special display occupying the central portion of the room, showing the various uses to which electricity may be put.

In addition to this the engineers

LECTURER OF PROMINENCE

Will Hold Meetings at U. A. C.
Through Courtesy of Manager
George T. Odell

Prof. P. G. Holden of the Ames University of Iowa, is giving a series of lectures throughout Utah and Idaho and will be at the Agricultural College at Logan, Wednesday, Jan. 29. At 2 p. m. the professor will speak to the student body in chapel, and at 8 o'clock in the evening at the same place, he will lecture before the conjoint meeting of the Farmers Roundup and the Housekeepers conference on "Soil Culture and Crop Conditions." Prof. Holden is a lecturer of national prominence, and is here through the courtesy of Manager Geo. T. Odell, of the Consolidated Wagon & Machine Co., who has arranged his itinerary for Idaho and Utah. Both meetings will be held in the chapel at Agricultural College. The lecture is free and the public are cordially invited to attend.

LOCAL PEOPLE AT CONVENTION

Dr. Robert Stewart of U. A. C. Elected Secretary and Treasurer of Utah Dry Farmers

At the Dry Farmers convention held at Ogden last week, Dr. Robert Stewart of the Agricultural College was made secretary and treasurer of the association, and J. F. Paxman of Nephi was made president to succeed Prof. Lewis A. Merrill. Dr. Stewart gave an able paper at the convention. In taking the chemical point of view, said he considered the hard and more sturdy wheat the best for the farmer, the consumer and the miller. He explained the chemical ingredients of dry farm grains from a scientific standpoint, and maintained that the soft and the hard wheats might be blended and used to good advantage. Others who gave papers were Henry H. Blood of the Utah-Idaho Millers association; Dr. F. S. Harris, Dr. E. G. Peterson and Lon. J. Haddock.

CANNING FACTORY INFORMATION

Will Hold Meeting in Tabernacle
Where Experts Will Tell of Benefits of Such an Industry

There will in all probability be an industrial meeting at the tabernacle Saturday evening for the purpose of discussing the practicability of the canning industry for Cache valley. The matter of calling the meeting is with the stake authorities and the Agricultural College. Several experts on the canning industry its benefits, markets, etc., have been engaged by the U. A. C. and will be in attendance at the Roundup. In as much as the stake authorities are desirous that all the people of the community may have an opportunity to hear these gentlemen, and as Saturday evening is the only evening during their stay here that they could be procured, they felt that it would be advisable to devote at least part of the time for the quarterly priesthood meeting to listening to the advantages of such an industry for a community.

There is little doubt that all the people of the valley will be interested and they are asked to be in attendance at the Saturday night meeting for there will be imparted information that would cost several hundred dollars, were these men to be brought here at any other time. Who is there in the valley who would care to make a guess what it would mean to us commercially, to establish a canning factory here to handle our fruits and vegetables.

NATIVE SONS WILL MEET

Parley P. Jensen, president of the Salt Lake Council of the Native Sons of Utah, and Diana T. Smith of Salt Lake will be in this city Monday evening, February 3, at 8 o'clock for the purpose of meeting with the local members of Council No. 6. They will assist with the installation of the local officers and explain the work and object of the organization. Every native son of Utah living in the city is respectfully invited to attend the meeting. It will be held in the Commercial club rooms. This organization is destined to cover the entire state and is one in which every native son should have his name upon its roll.

EDUCATION COMMITTEES OF HOUSE AND SENATE VISIT THE COLLEGE

Legislators Are Guests of Local School. Look Over Needs of Institution. Give Chapel Talks. Pres. Widsöe Familiarizes Members With Present Conditions

The education committees of both the House and the Senate of the Utah legislature were the guests of the Agricultural College on Saturday. They came to the city Friday evening in a special Pullman coach. Saturday was spent visiting and going into the present needs of the local school. There were about forty who made the trip from Salt Lake. On arriving at the College at 9 o'clock in sleighs, a meeting was called of the legislators where Pres. John A. Widsöe gave a clear and concise statement of the actual requirements of the institution.

He emphasized the fact that the school has just about reached its student capacity without more floor space being provided. He referred to the crowded condition of the chemical laboratories, the unsanitary location of the college dairy, and the need of a new roof for the Mechanic Arts building. A shed for exhibiting machinery, placed at the disposition of the college by manufacturers is a crying need, as well as completing the central heating plant which now but partially connects the school buildings. The appropriations asked seem to be moderate and conservative when it is considered no aid is asked for apparatus. The appropriations asked are: Agricultural Chemistry building, \$65,000; Model dairy \$20,000; new roof Mechanic Arts building, \$9,000; shed for machinery \$2,500; and Central Heating Plant,

\$23,000. President Widsöe gave statistics taken from the report of the U. S. Commissioner of education for the school year 1910-11 which showed the total cost per capita for educating students in nine western agricultural colleges. The table simply took into account the students who attend school for the full year. The cost per capita is as follows:

Washington, \$341; Oregon, \$302; Montana, \$539; Colorado, \$291; New Mexico, \$480; Kansas, \$260; North Dakota, \$458; South Dakota, \$457; Utah, \$252. This was considered a remarkable showing by the state college when considered the work done by students of the local institution is as thorough as that done elsewhere.

An inspection of the buildings and equipment was made immediately following chapel exercises. At chapel the following gentlemen spoke to the students: A. L. Booth, C. R. Mabey Senator Eckersley, D. H. Morris, D. O. Rideout, M. H. Welling, Senator Olsen and R. L. Judd. Luncheon was served at 1:30 and the committees left on the 2:40 train for Salt Lake. The committee members who visited Logan are men thoroughly convinced of the need of a practical education and left the city seemingly very favorably impressed with the work of the U. A. C. The expression from those who spoke at the chapel exercises, were of a very friendly nature toward the local state school and there is little doubt that due consideration will be forth coming when the matter of providing funds is up for final settlement.

Those who came to Logan on the special coach, were as follows: Hon. A. L. Booth, C. J. Kelley

and wife, James Eckersley and daughter, Samuel Oldham, A. M. Durham and brother, C. R. Mabey and Mrs. Rampton, M. H. Welling, D. H. Morris and wife, R. L. Judd, Mrs. Annie Cannon and daughter, John N. Henrie, Dr. J. W. Scofield and daughter, L. M. Olsen, Daniel McRag and wife, Mr. A. Arnold and wife, Mr. A. Jorgenson and wife, Miss May Elliott, Mrs. James E. Tammage, Mr. George Anderson, D. O. Rideout and wife, J. W. Funk, J. W. Thornley and wife, L. R. Anderson and wife, H. C. Christensen, B. Y. Benson, J. E. Cardon, Wilford Day.

UTAHNS IN CHICAGO

Chicago, Jan. 26.—J. E. Wilson Jr., cement contractor of Logan, has been in the east since last Saturday. He came to attend the cement show now being held at the Coliseum in this city. While here Mr. Wilson will look over machinery with the object in view of improving and enlarging the Logan plant. Before returning he intends to investigate conditions in Milwaukee and Kansas City. While here he is the guest of W. L. Smith, also of Logan, who is at present a student in the University of Chicago. Both were entertained last Sunday afternoon by Mr. and Mrs. W. Booker Preston.

On Wednesday evening Jan. 29 at 8 o'clock at the tabernacle, Mr. Stanley Johnsson representing the Inter-mountain Industrial association will give a free lecture and picture show. Mr. Johnsson with his pictures will show the different manufactures of Utah and what they are doing. Along with the picture show he will give a lecture on the resources and opportunities of Utah.

Peter Peterson of Petersboro is here for the U. A. C. Roundup. He expects to be in attendance during the entire two weeks of lectures and demonstrations.

DRAMATICS AT LOCAL SCHOOL

Successful Performance of Christopher Junior Friday Evening at Nibley Hall. Will Repeat Tonight

The presentation of Christopher Junior Friday evening at Nibley Hall by the B. Y. College dramatic club was a theatrical treat to the large house which greeted the performers. It is seldom that a local school is able to get a cast that appears to better advantage than the one which represented the B. Y. C. Friday evening. The members of the state legislature, who were here for an inspection of the U. A. C. were special guests of the B. Y. at the performance and have the highest praise for the good work of the local amateurs. The drama was one continual laugh throughout. Jesse Smith, as Christopher, acted well his part, as did also Miss Lydia Hansen as Dora niece of Major Hedway a retired soldier who was very fond of "chess." Parley A. Christensen, as father of Christopher Junior, read his lines well and received no little applause for his clever acting. Leora Thatcher, C. Cardon, G. Poulsen, M. Barrus each contributed strength to the cast as did the other members. The orchestra conducted by Prof. Henry Otte, furnished excellent music.

The dramatic club will repeat the drama tonight. Every person who is a lover of amateur performances will be thoroughly entertained by attending. The first curtain is at 8:15, Nibley Hall.

B. Y. C. WINS FROM SAINTS

Coach Jensen's Team Makes Good Showing Against Old Rivals of the Local College

The B. Y. College basketball team won another victory Saturday evening by defeating the L. D. S. U. team of Salt Lake at the College gymnasium by the decisive score of 34 to 16. The Saints were able to make the first field basket, but from then on were completely outclassed in one of the roughest games ever played on a local floor. The visitors did little team work. The few points they were able to make, were made on the individual playing of Smith, the big center who secured four field baskets and landed eight out of fifteen tries at foul line. He is the hardest man Peterson of the B. Y. has played this season. The Salt Lake team is composed of larger men than the local team, and consequently had an advantage at the jump, but on the floor, to the contrary the B. Y. boys put it all over the Saints. The ball was in play most of the time under the B. Y. basket, yet on account of holding, shoving and a general scramble for the ball, but few throws for basket could be made. Hill, as forward, did good throwing, making six field baskets, the highest individual score of any of the local team. Peterson came next with five field baskets. Barron kept up his usual reputation as guard, and succeeded in placing safely within the net, six out of fourteen tries from foul line. Tolman, B. Y. forward, made two field baskets, and Wright, guard, made one. The game was officiated by Hugh Peterson of the U. A. C. The lineup:

L. D. S. U.	B. Y. C.
Sevy	Hill
Parkinson	Tolman
Smith	Peterson
Rennion	Wright
Olsen	Barron

STRUCK WILDCAT WITH BUTT OF GUN; KILLS SELF

Ontario, Cal., Jan. 26.—When he hit a trapped wildcat on the head with the butt of his shotgun today, Nothman Sparks, a hunter, received a charge of buckshot which killed him. His body was found lying beside that of the animal.

It is supposed that Sparks in the excitement caused by finding a huge wildcat in his trap forgot that his gun was cocked when he used it as a club to kill the animal.

The voice of the people is most distinctly heard in the silent vote.
